

Greetings

A bright and strong local hub university opening the doors to the future

A university that fosters the 'pillar of national restoration'

Yeungnam University was founded with the goal to build a strong nation through education in the midst of poverty and tribulation. Based on its founding spirit of 'creating a new history through national restoration', Yeungnam University has fostered regional and national development for the past 70 years.

Over 210,000 YU alumni have helped Korea achieve amazing development. Now, YU will do its best to foster talent not only Korea, but the world.

YU will continue to fulfill its social roles and responsibilities and ceaselessly foster talents who will lead the new era.

A university that gives hope to future generations

'Y-type human resources' developed by YU will be at the center of the world. 'Y-type human resources' considers the future through advanced academics and practice and approaches learning with a warm heart and fiery passion. YU will foster 'Y-type human resources' that lead today and will prepare for tomorrow.

YU will not be satisfied with the achievements it has made thus far, but instead, spare no effort or investment in tomorrow. YU will silently fulfill its responsibilities for the impending future, instead of dwelling on its past achievements and prestige. YU will be a university that makes changes from within to reap greater value in order to lead education and research for the future of humanity.

A university that soars with the 'spirit of Cheonma'

YU has established itself as a prestigious private university that opens the doors to a bigger world beyond its community. YU has worked hard to become the light of the world and will now become a respected name that is respected throughout the world.

Yeungnam University always aims for value greater than what is before the eyes and turns changes and challenges into possibilities. The name of YU will now be ever stronger and newer. We increase value to the name of Yeungnam University. We will demonstrate the 'spirit of Cheonma' by soaring towards a bigger world and brighter future.

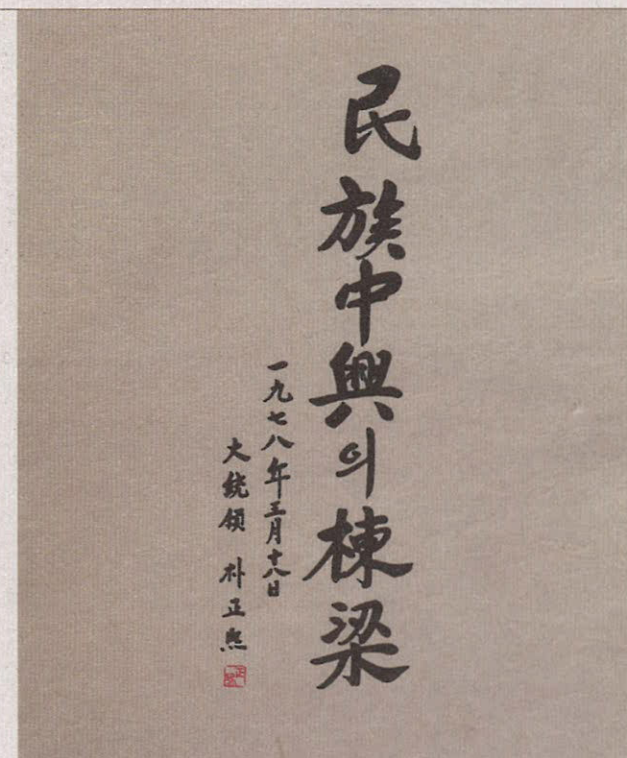

We ask for your unwavering support for the new changes and challenges of Yeungnam University.

Thank you.

President of Yeungnam University

Gil Soo Sur

The YU Spirit

The founding spirit of Yeungnam University, established by the former President Park Chung-Hee, is contributing to create a new history and revive the nation through education based on patriotism.

Educational Goals

The educational goals are focused towards a lifting and maintenance of the Korean spirit, appreciating the richness of the historical heritage and traditions and continuing the country's cultural heritage. The school will continue to strive for academic excellence and encourage the development of technology and the advancement of new ideas.
