20 September 2006

On behalf of our Vice-Chancellor, Professor Peter Coaldrake, it gives me great pleasure to extend an invitation to our partner universities to participate in the new Queensland University of Technology-China Scholarships Council program of scholarships.

QUT's record of research growth and impact is at the leading edge in our country, and the research culture of QUT is dynamic and well-resourced.

The new scholarship program is an opportunity for world class research training for the next generation of researchers and research leaders; and, at the institutional level, for new research collaborations which we hope will continue and grow over many years to come, with benefits for both China and Australia.

Our institutions already enjoy cordial relationships, and I am confident that the new program will help us to forge a deeper and stronger partnership across a range of discipline fields.

We look forward to receiving expressions of interest in the program from a number of your staff and/or students; and hope to welcome them into QUT's research programs in the near future.

Professor Arun Sharma
Deputy Vice-Chancellor (Research and Commercialisation)
