# AUTOMATIC CONTROL & ELECTRICAL SYSTEMS

ONLINE

PRE-DOCTORAL SUMMER SCHOOL 5<sup>th</sup>-13<sup>th</sup> JULY 2021

A strong scientific training  
in line with top-tier research centres  
& leading innovative computer science, power electronics  
& automation clusters

The strategic, most dynamic area in North-West Europe  
at the heart of a high-performance academic  
& economic hub that makes innovation a priority

A gate-opening pre-PhD programme  
giving access to the French research community  
& making connections internationally

A young region, always on the move  
lively, easy-living, with a rich history  
& heritage, centre of arts & cultures

Forward-looking higher education institutions  
with high-standard on-campus accommodation  
& welcome services, great facilities & vibrant hall life

## LEARNING, DISCOVERING & NETWORKING INTO YOUR PhD IN FRANCE

### PROGRAMME

CRIStal & L2EP (University of Lille)  
& International Academy

→ 40 hours taught in English

- \* Top scientific lectures & seminars with leading researchers in the fields of automatic control & electrical systems
- \* Simulation session & demonstrations of cutting-edge equipment
- \* Introduction to research through a supervised project
- \* Peek into the French language & culture

→ Perspective to integrate a PhD in France

**Keywords:** Advanced Modelling Methods, Advanced Control Methods, Hybrid & Electric Vehicles, Energetic Macroscopic Representation, Innovative Energy Storage Systems, High-Efficiency Electrical Machines, Geo-Localisation, System Identification, Parameters Estimation.

### Final Assessment

Certificate of Completion & 3 ECTS credits

### APPLICATION

**Targeted participants**  
Master & PhD students

### Admission Criteria

- \* Excellent academic results, in-depth knowledge in electrical engineering & automation
- \* Advanced English
